SALES DEMONSTRATOR

BOB'S BMW 2011 DEMO DEALS!

2011 BMW F800ST

Lt Grey/Sapphire Met/Granite Tri-Color • 2,016 miles

stock number ZR12620

\$13,795

One of our favorite with the team at Bob's this ST is loaded and features, premium tri-color paint, PKG 1 including bag mounts, expandable side cases keyed to match ignition, heated hand grips, on board computer, and ABS brakes, TPM (hard to find option on these), clear turn signal lenses, anti-theft alarm and center stand. We've also install all the goodies including the really nice Verholen bar riser kits with proper cable extension, Powerlet accessory outlet, BMW tinted wind screen, and BMW LED turn signals – about \$855 total. This bike is fully serviced and under full factory warranty which starts when you take delivery! There are no changes other than colors for the 2012's so this one is a great deal. New this bike is \$14,515 and with the accessories comes out to \$15,370. Buy this bike and save over \$1500! This bike is loaded!

*Current incentives cannot be used in combination with existing BMW Military Program.

\$INCOMING

2003 BMW R1150R

Night Black • 20,349 miles

stock number ZF47457

\$5,295

A clean non-ABS R bike serviced at Bob's. This bike features heated grips, heated hand grips, low seat, and O/D trans from the factory along with a set of BMW System side cases keyed to match the ignition, BMW hand guards, accessory outlet, and a Sport wind screen. The bags show some signs of use and a scuff or two. You of course get all the BMW engineering goodness including the tried and true oil head Boxer motor, making 85hp, a 6-speed 'box, shaft drive with paralever suspension and front anti-dive tele-lever suspension. We just did a bi-annual service (all fluids), and updated the fuel connectors from plastic to metal. It was just here last April for a bi-annual, new battery, and a fresh set of Metzler Z6s at 19,949 miles. This is a clean one in the right color and at the right price. It was not detailed at time of photos but will come fully detailed. A great standard bike that can be dressed to tour - and it's a BMW. Act fast.

2009 BMW G650GS Low

Black • 7,395 miles

stock number ZW16713

STOCK NUMBER ZVW10710
\$5,995

Sold and serviced at Bob's BMW by two great owners this low chassis GS features ABS brakes, heated hand grips, center stand, and 4-way hazard flashers. This is the limited factory low chassis edition with the 29" seat height, it's low and narrow! It also features the BMW expandable side cases - with a few obligatory dings and scraped on the left bag from use, BMW hand guards, taller BMW Dakar wind screen, a volt meter, with a few obligatory dings and scraped from use. These are awesome commuter bikes that can do long haul if needed. They are capable of 100mph and 60-70mpg with a 4 gallon tank and a fuel injected and water cooled. This bike just received its' Inspection I 6K service on 7/11, had an oil and filter in December, and we just renewed the steering head bearings. This bike is under full factory warranty until 5/2/12 or 36,000 miles, whichever comes first. Awesome commuter bike and a hard to find factory low chassis – hold it with a fully refundable \$500 deposit today!

2010 Honda Shadow RS

White • 6,339 miles
 stock number 000205
\$5,995

A really unique bike on the market right now, classic cruiser looks on a chassis that handles. You get a classic 745cc fuel injected and liquid-cooled V-Twin making a solid 60hp running through chain drive and a 5 speed 'box all weighing in at 500lb wet and getting 56mpg. With a nice 29" seat height that's a pretty tidy package. This one was purchased just under a year ago and just traded on a 2011 BMW G650GS. There is the tiniest of nicks on the top of the rear fender that I attempted to photograph but it's the only flaw. It's a really nice middle weight bike that can serve as a great starter, excellent commuter, or just your weekend run about.

2009 Vespa GTV 250 i.e.
 Portofino Green • 96 miles
 stock number 502400
\$5,995

Vintage style wrapped around a thoroughly modern machine. This special edition GTV is based on the water-cooled 250cc fuel injected GTS i.e. but features a fender mounted headlight, dual style vintage leather saddle, chrome wheels and fly screen. These scoots have CVT transmissions, no shifting, goes 80mph, and get 65-70mpg with a 2.4 gallon tank. This scoot features the optional paint to match top trunk, rear chrome metal wrap around bars, floor mat (yes floor mats on a scoot!), and side stand – about a \$1000 of goodies. The cool thing about the 250's is that they are as composed bombing around town as moving down the highway and can serve commuter duty with lots of under seat and rear trunk storage. We were a Vespa/Piaggio dealer a few years ago and really fell in love with these scoots. Be green (literally and figuratively), and act fast, it won't last.

2010 Triumph Street Triple
 Tornado Red • 6,823 miles
 stock number 436278
\$7,995

Just traded as part of a two bike trade on a 2009 K1300GT this is our F800R competitor and the bike giving the Monster 796 fits. The Street Triple is a compact hooligan running a 675cc liquid-cooled triple making 107hp and 51 ft lbs run through a 6 speed 'box all packaged in a Daytona derived chassis. From its' distinctive roar to its' iconic twin headlights it's pure hooligan ridden in all-day comfort. Purchased last May this bike is under full factory warranty until 4/13 and we just sent it to Pete's Cycle for a going through and fresh rear tire. It's a one owner bike ridden by a regular multi-bike customer that was well cared for and comes with a Haynes service and repair manual. Act fast on this one.

2001 BMW R1200C Montana Edition

Black • 43,326 miles
 stock number ZA66971
\$8,195

We were lucky to get this one. It's a Montana Edition featuring ABS brakes and heated grips from the

...on the bike's completion, and other items from the factory such as seat, step-overs. The bike was outfitted with a Z-Tech VStream touring windscreen, mirror extenders (widens stance of mirrors), Verholen bars risers (very nice and about a 2.5" riser and back about 1"), Motolite driving lights, high intensity headlight bulbs and a Powerlet accessory outlet direct fused to the battery. We just completed a 12K and bi-annual service, the tires were replaced at 9K on 8/10, and it is under full factory warranty until 10/22/2012 or 36,000 miles, whichever comes first. There is a scuff or scratch here or there but mileage appropriate and a super clean bike. If an RT is just too much around town but you still want the ability to tour the F800ST is the answer and this bike is kitted out to do the job.

2008 BMW K1200GT

Light Grey • 36,901 miles
 stock number ZN47762
\$13,795

Another super clean GT sold and serviced at Bob's BMW and recently traded in on a new 2011 R1200GS Adventure. This GT features ABS brakes, ESA (on-the-fly push-button electronic suspension adjustment), heated black seats, Xenon headlight, heated grips, electronic cruise control, paint and key to match side cases, center stand and trip computer from the factory. Having one multi-bike owner it also features a taller ZTech Vstream touring wind screen. You also get BMW's monster 154hp fuel injected and water-cooled transverse 4 cylinder, 6 speed 'box and duo-lever front suspension. These are amazing bikes and this is a super clean one. Act fast.

2009 BMW K1300S

Lava Orange • 22,092 miles
 stock number ZV93496
\$13,295

Here's one a little differently equipped at a great price we just picked up from a regular customer and Club member. This bike features ABS II brakes, heated grips, OBC, and shift assist from the factory, a little more pared down in terms of the technology for those who prefer a "purer" experience. It also features and MRA wind screen with flip up / adjustable winglet. You also get the updated for '09 transverse water cooled and fuel injected 4 cylinder motor, updated for '09 6 speed 'box, shaft drive and paralever and Duolever suspensions. These bikes make 175hp, do it with ease and in all day comfort. The 18K valve check service was completed 10/10 at Morton's and we just did a full bi-annual service with coolant, replaced the front discs, so all major and minor services are current and complete. This bike is under full factory warranty until 7/25/12 or 36,000 miles, whichever comes first.

1999 BMW K1200LTI Hannigan Trike

Basalt Grey • 89,935 miles
 stock number ZD70064
\$13,995

A great opportunity to get into a \$30,000 trike for less than half price. This was just traded in on a new \$30,000+ 2008 BMW K1200LT Hannigan trike we built to spec for the customer. We sold this one-owner K1200LT Icon here new and then converted it to a Hannigan Trike in November of 2007 at 45,700 miles. It came standard from the factory with ABS brakes, cruise control, heated grips and on board computer. LTs are 4 cylinder fuel injected and watercooled bikes making 100hp through shaft drive and a 5 speed transmission. This bike launched us as a Certified Hannigan dealer as it was sent to Hannigan with two of our BMW Master Certified technicians to be built at Hannigan. The conversion included the steer-lite and trailer hitch options. It has recently received a rear master cylinder and left rear hub and bearings. It has had every scheduled service. In June of 2010 it received a fresh clutch at 67,000 miles along with recent front shock spring. It also features the 2:73 rear end which is the cruising rear end providing lower rpms at higher cruising speeds. There are a few mileage and age appropriate marks here and there including a small star crack in the passenger backrest vinyl and a rub mark on the lower edge of the top trunk and top of the front fender but it present extremely well. It features the chrome rear luggage rack with LED brake light, tall touring wind screen (power adjustable), passenger floorboards, radio with cassette deck in dash and 6 disc CD changer in trunk. This bike is being offered at the price of doing a conversion alone without a donor bike. Act fast, we rarely see these available and this one is one-owner with an extensive and complete service history.

2009 BMW K1300S

Lava Orange • 8,166 miles

anti-theft alarm, and push button power operated center stand. It also features the updated for '05 116hp water-cooled and fuel injected 4 cylinder with shaft drive. This bike has some great add-ons including flip out Jpegs, PIAA 1100X driving lights, and Backup drivers backrest. It just received a 24K Inspection II and recent front tire. We just did an annual service (brake fluid and oil) and installed a fresh matching rear tires. These are great deals these days and also make excellent candidates for Hannigan side car or trike conversions (contact Chris Buell, Service Manager, at ext. 227 for details). This bike is eligible for a Zurich extended vehicle service contract – contact Tim Smith, F&I Manager, at ext. 210.

2010 Harley Davidson Electra Glide Ultra Limited FLHTK

Scarlet Red / Vivid Black • 3,465 miles
stock number 627610
\$17,995

Compare pricing and buy this clean Limited 103"! Listed below NADA clean trade and \$4,075 below NADA average retail! This is the ABS brake Limited featuring the Twin Cam 103" motor making 10% more torque vs the standard 96" Ultra and also features styling upgrades. The Limited also features two-tone paint, 28 spoke cast wheels, and helical cut 5th gear for improved transmission sound. You also get 6-speed Cruise Drive trans, Brembo 4 piston front and rear calipers, air-adjustable rear shocks, full length rider floor boards, height adjustable passenger floor boards, 6 gallon tank, HD security system, and electronic cruise control. It's almost too much to list including the Premium Tour Pack, heated hand grips, 80 watt, 4-speaker, Harmon Kardon sound system with CD/MP3 player, LED rear fender tip light, and aux. passing lights. Its' one flaw is a small paint scrape on the left side of the front fairing where it apparently rubbed up against something. It runs about a 27.3" seat height and gets a reported 35-54 mpg. This is the King of Grand American Touring when it comes to V-Twins. Act fast, awesome price.

2011 BMW R1200RT

Thunder Grey Metallic • 2,888 miles
stock number ZW20199
\$18,495

Sold and serviced at Bob's BMW and just traded on a new K1600GTL this clean RT features ABS, ESA, ASC, TPM, heated seats, heated hand grips, Audio/Sirius/Bluetooth, chrome exhaust pipe, cruise control, on board computer, accessory outlet w/ Powerlet conversion, center stand, adjustable standard height seat, and paint and key to match side cases. The 600 mile service was completed here 11/2/12, we just changed the oil, and it's under full factory warranty until 9/6/2014 or 36,000 miles. These are awesome Sport Touring bikes with all-day comfort and sport bike like agility. With a 7 gallon tank and a 300+ mile range along with power operated wind screen and all the other creature comforts it's the total package. Not included but also available are a host of accessories including a 49L or 28L top case, highway pegs, peg lowers, bar risers, etc, etc, just inquire and we will set up this bike to your spec.

2009 Honda ST1300 ABS and EML GT2001 Sidecar

Dark Candy Red • 1,261 miles
INQUIRE

This outfit belonged to **Mike Traynor**, the incredible man who, along with his wife Diane, founded the **Pediatric Brain Tumor Foundation** and the **Ride for Kids** program. Mike was looking forward to making this his personal rig, but due to his untimely death last September, the work was halted as it began. Diane Traynor as Bob to help her find a suitable home for what would have been Mike's sidecar rig.

Some details: The EML GT2001 is an exceptional sidecar that was built in Holland. The Honda was an executive bike and is in brand new condition! The sidecar has been fully prepped and is ready to be painted to match the ST1300. Final painting and assembly can be done by Bob's BMW or by the purchaser. Bob is authorized to sell the sidecar kit independently of the bike should someone who already owns a Honda ST1300 and wishes to install it on their own bike. Please know that the ST1300 will be sold separately if the EML Sidecar kit is sold first. [Click HERE to see the full ad!](#)

Interested? Of course you are! For further discussion and inquiry, or to arrange a personal inspection, or simply to learn how you can help the PBTF, please email **Bob Henig** or call him at **301-497-8949 x218**.

SOLD!

Inquire about our Hannigan Trike program, we build from new or can convert your existing BMW.

Click [HERE](#) for more information about our **Hannigan Trike program** or contact **Chris Buell**.

Is this all we have to offer? OF COURSE NOT!

Bob's has always been known for keeping one of the largest inventories of new and used BMW's on hand 12 months a year. Because we sell so many bikes (1 customer at a time) we simply choose not to show you a photo (or line listing) of every bike available and clog up the site. But rest assured we have the new or used bike (and plenty of non BMW's) you desire available, and if we don't have it right now it's probably on a truck or in a ship heading here so it will be ready for you very soon.

Please Note: The mileage listed on each motorcycle is the mileage at time of intake. Bob's offers a demo ride program on almost all used bikes in inventory so mileage will vary at time of sale. Sometime the mileage can be 100's of miles different and while we endeavor to list accurate mileage it is a guide for the approximate mileage on the bike. Actual mileage will be listed at the time of sale.

BOB WANTS YOU to show us your clean, mechanically perfect and desirable **used bikes**. We even want your **dirty**, possibly not run in eleven years and far less than perfect bike too. **Regardless of the year**, model, condition or brand. **Period**.

Just TWO requirements: 1) that you have a clear title in your possession, and 2.) you have at least one key to give us. It's that simple.

Our customers are eager for used bikes at every price level. Sure, we want clean, late model bikes, but even if you think your old ride isn't worth anything, you've got nothing to lose by bringing it in so we can at least have a look and tell you what it's worth to us. If you can't deliver the bike, we can, within reason, arrange to have it picked up.

Let's talk about it! Contact **Ashton** or **Bob**, either by email or with a phone call to 301-497-8949 (x 237 for Ashton, 218 for Bob) or Toll-Free 888-269-2627. Do it NOW!
